CORRESPONDENCE:

1. Email dated 5/28/2026 from Kayla Oliphant relative to scope of practice for speech-language pathologists

In accordance with La R.S. 37:2651, the diagnosis of dyslexia is in the scope of practice of a speech-language pathologist, given that they have the proper experience. There are no state-specific regulations, certifications, or requirements related to this for SLPs in Louisiana.

2. Email dated 7/02/2026 from McKeba Acker relative to diagnostic hours for supervision

Diagnostic hours are required in the Rules and Regulations for now. As the Coordinator of the Speech program, the Board recommends that you provide your therapists with the opportunity to gain diagnostic experience by building in time to do portions of diagnostics or work with the Diagnostician to gain

additional knowledge. The Board does not specify if the diagnostics has to be formal or informal.

3. Email dated 7/23/2026 from Amanda Choates relative to Non-English speaking clients and an English only SLP

The Board will respond with the following Rules and Regulations:

Rule 701.E.1.b. states "Individuals shall use every resource, including interprofessional collaboration and referral when applicable, to ensure that appropriate service is provided."

Rule 701.E.1.l. states "Individuals shall use independent and evidence-based clinical judgment, keeping paramount the welfare of those served."

Rule 701.E.2.a. states "Individuals shall engage in only those aspects of the professions that are within the scope of their practice and competence, considering their level of licensure, registration, education, training and experience."

Rule 701.E.2.d. States "Individuals in administrative or supervisory roles shall not require or permit their professional staff to provide services or conduct research activities that exceed their competence, education, training, experience, and licensure status."

4. Email dated 7/19/2026 from Hannah LeBlanc relative to indirect supervision

The Board will respond that this is not supervision, it is observation. While it's a great practice to observe to gain knowledge, supervision involves you as the practitioner doing therapy or an activity and giving feedback.
